

NIGHT SHOT

- Powerful night sensitivity
- Intelligent IR Compensation
- Extended IR LEDs life cycle and the sensitivity
- IR Sensitive mechanical Day/Night filter system built-in
- True Color at Day and Real B/W at Night conversion
- High resolution of 420 TVL at Day/520 TVL at Night
- HSBLC(Highlight Suppression BLC)
- IP65 Weatherproof

MODEL#: NIGHT SHOT

Image sensor	1/4" Sony CCD
H. Resolution (Lines of Resolution)	NTSC : 420 (Day) NTSC : 520 (Night)
Lens	22X / 27X (3.9-85.8mm/105.3mm)
Minimum illumination	0Lux (Led on)
S/N ratio	More than 48dB
Viewing Distance	80-100m
View Angle	45° / 60°
IP Rating	Ip65
Video output	1.0Vp-p 75 Ω
Operating Temperature	14°F ~ 122 °F (-10 °C ~ +50 °C)
Power source	12V DC / 1.1A
Measurement (inches)	6.77"(L) X 5.04"(W) X 4.65"(H)
Weight (Approx lbs.)	5.07lbs

The powerful Night Shot is a super night sensitive IR camera created specifically for zoom capabilities. You will have a 27X zoom lens built into the camera to be controlled through the DVR itself, a keyboard/joystick if you need one, and even through the CMS software of your DVR.

The zoom function uses a lens from 3.9mm all the way up to 105.3mm! That gives you the ability to see wide angle with perfect quality and then in the next instance up to 100' away.

Perfect for warehouses, self storage facilities, restaurants and more.

Simple wiring – Complex Features!
